### **1. Approbation agenda**

The sole point on the agenda is the DoC-template (Declaration of Compliance) proposed by the EU-commission

- a. Identification of remarks on the template
- b. Is the Fetra template Fit for use

### **2. DoC**

Section 1:

- only reference to legislation EU 10/2011 – Quid other harmonised materials (Rubber, ...).
- Registration n° is new.
  - o Where to get this?
  - o Procedure? Attention to complexity (time, cost, level of specificity)
- Address Comp. Authority: which one? What if FCM are marketed in many MS?

Section 2.1 – 2.2:

- Quid special function: T°C-logger (demand of position statement 616 BRC)
- Little flexibility?
- FETRA-DoC: Add time&temp

Section 2.3 – 2.4:

- Request of industry: should remain in a 2<sup>nd</sup> level of information. Only on request by customer
- FETRA-DoC: Take out section on testing and make as an annex to the DoC.  
Develop this section based on EU proposal
